Drilling Supervisor Surface BOP Stack	14
Driller Combined Surface and Subsea BOP Stack.....	14
Drilling Supervisor Combined Surface and Subsea BOP Stack.....	14

Note: IWCF and IADC accreditation available.

FIRE FIGHTING COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
Fire Extinguisher Use – Industrial	Theoretical and practical training in the use of fire hose, fire blanket, and fire extinguishers; dry chemical and CO ² .	3271	4 Hours	M&O Pacific Fire Training Centre
Fire Science and Fire Extinguisher – Industrial	Theoretical training in fire science, fire fighting and fire prevention, plus practical training and practice in the use of fire hose, fire blanket, and fire extinguishers, dry chemical, foam and CO ² , including liquid fuel and high pressure gas fires	3271 4647	6 Hours	M&O Pacific Fire Training Centre
Fire Team Member	Comprehensive practical and theoretical training for members of an Emergency Response Teams on all aspects of industrial fire fighting, including SCBA, co-ordinated water attack on liquid fuel and high pressure gas fires, internal and external with extensive use of practical scenarios tailored to the specific work environment of trainees	3271 4647 3272	4 Days	M&O Pacific Fire Training Centre
Fire Team Member Refresher	Practical refresher training in all aspects of industrial fire fighting, including SCBA, coordinated water attack on liquid fuel and high pressure gas fires, internal and external, with extensive use of practical scenarios	3271 4647 3272	1 Day	M&O Pacific Fire Training Centre
Fire Team Leader	Practical and theoretical training for Emergency Response Team Leaders, including incident command and control concepts and team leadership strategies.	3321	2 Days	M&O Pacific Fire Training Centre
Wear and Operate Compressed Air Breathing Apparatus	Practical training on the use of Compressed Air Breathing Apparatus	25044	4 Hours	M&O Pacific premises or on site at client premises
Wear and Operate Breathing Apparatus	Comprehensive theoretical and practical training in the use and operation of SCBA, including search and rescue techniques, skills and practice in a variety of situations including an enclosed smoke filled heated environment (realistic fire training building)	3272	2 Days	M&O Pacific Fire Training Centre

FIRE FIGHTING COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
Wear and Operate Breathing Apparatus Refresher	Practical refresher of the use and operation of SCBA, including search and rescue techniques, skills and practice in an enclosed smoke filled heated environment (realistic fire training building)	3272	1 Day	M&O Pacific Fire Training Centre
Airport Live Fire Training	Theoretical and practical training specific to the fighting of airport live fires, including SCBA, coordinated water attack and use of foam on liquid fuel fires, with extensive use of practical scenarios	3271	As negotiated	M&O Pacific Fire Training Centre
Fuel Tanker Driver Emergency Response	Theoretical and practical training designed for the trucking and transport industry that combines basic fire fighting using fire extinguishers and hose reels with first aid and emergency medical response	3271 4647 6402 6401	3 Days	M&O Pacific premises or on site at client premises
Fuel Tanker Driver Emergency Response Refresher	Refresh the Fuel Tanker Driver Emergency Response training with a 2 day refresher of the first aid and fire training with scenario's	6402 6401 3271 4647	2 Days	M&O Pacific premises or on site at client premises

Mobile Fire Fighting Training Course - We Come To You!!

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
Fire Extinguisher Familiarisation	Basic practical training in the use of fire blanket and fire extinguishers; dry chemical and CO ²	N/A	2 Hours	Mobile Fire Training Unit
Fire Extinguisher Use– Commercial/ Domestic	Theoretical and practical training in the use of fire hose, fire blanket, and fire extinguishers; dry chemical, foam and CO ² , including liquid fuel fires	3271	4 Hours	Mobile Fire Training Unit
Fire Science and Fire Extinguisher Commercial/ Domestic	Theoretical training in fire science, fire fighting and fire prevention, plus practical training in the use of fire hose, fire blanket and fire extinguishers; dry chemical, foam and CO ² , including liquid fuel fires	3271 4647	6 Hours	Mobile Fire Training Unit

HEALTH AND SAFETY COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
Protect Health and Safety in the Workplace	Introduction to OSH legislation, including the principles of a safe workplace, and the responsibilities of the employer and employee	497	4 Hours	M&O Pacific premises or on site at client premises
Incident Investigation	Techniques and tools for the investigation of incidents and accidents in the workplace	17601	1 Day	
Hazard Identification	Techniques, tools and practices for the identification of potential hazards in the workplace	17602	1 Day	
Work Safely With Others	Principles of a safe workplace, and how to implement these, with a outline of the responsibilities of the employer and employee	9625	1 Day	
Permit to Work (User/Receiver)	Introduction to the Common Permit to Work system (can be tailored to your PTW system)	17588	1 Day	
Permit to Work (Issuer)	Further training in the Common Permit to Work system including worksite inspection, permit auditing and hazard identification	17590	1 Day	
Chemical Safety	Principles and practices of working safely with chemicals	21467	2 Days	
Gas Testing	Principles and practices of gas testing, including the use of gas testing equipment	3058	6 Hours	
Safety Observer in the Workplace	Specific course developed to meet the needs of industry for persons observing and monitoring hot work and work completed in confined spaces	17596	1 Day	
Fire Warden (Emergency Warden)	Principles of the safe evacuation of buildings, and emergency warden responsibilities in the workplace. Course includes analysis and use of clients building evacuation plan	18408	4 Hours	

SPECIALIST SAFETY TRAINING COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
Work Safely at Heights	An outline of legislative requirements for safe work at heights, harness appreciation, and explanation of suitable systems for work at heights	16316 and 17600	1 Day	M&O Pacific premises or on site at client premises
Employ Height Safety Equipment	Theory and practical training aimed at people who require basic knowledge and skills of height safety equipment	25045	1 Day	
Employ Fall Arrest Systems	Comprehensive training in all aspect of establishing, maintaining and operating fall arrest systems for work at heights in a built environment, including legislative requirements, anchor points and planning rescue and emergency procedures	15757	2 Days	
Plan A Confined Space Entry	Theoretical training in the principles and procedures for planning an entry into a vessel or confined space, including permit requirements, and the roles and responsibilities for all involved	17599 and/or 18426	1 Day	
Confined Space Entry	Theoretical training in the permit procedures, roles and responsibilities for entering a vessel or confined space, plus gas detection processes	17599 and/or 18426 3058	2 Days	
Confined Space Rescue	Theoretical and practical training in the techniques and skills required to extricate injured persons from a vessel or confined space including patient handling and the use of ropes, tripods and ascending equipment	14562	2 Days	
HSNO Approved Handler Training	Theoretical and practical training in the handling of hazardous substances according to ERMA requirements, including an outline of HSNO legislation, and a range of modules for different classes of hazardous substances	20645	1 Day	
Slinging and Communication	Theoretical and practical training to prepare and sling regular loads and communicate during crane operations	3789	1.5 Days	

SPECIALIST SAFETY TRAINING COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
CIMS 2	An introduction to the New Zealand Co-ordinated Incident Management System Level 2	17279	½ Day	M&O Pacific premises or on site a client premises
CIMS 4	Advanced theoretical and practical training on the New Zealand Co-ordinated Incident Management Systems Level 4	22445	2 Days	M&O Pacific premises or on site at client premises

MARINE AND AVIATION TRAINING COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
HUET (Helicopter Underwater Escape Training) and Sea Survival	Theoretical and practical training in helicopter safety and sea survival skills and techniques, plus practical training in underwater helicopter egress. Civilian and military options	OPITO Standards	1 Day	M&O Pacific Marine Training Centre
BOSS (Basic Offshore Sea Survival)	Theoretical and practical training in sea survival skills and techniques	9604	1 Day	
BOSIET (Basic Offshore Safety Induction and Emergency Training)	This course is an OPITO approved course designed and conducted according to OPITO standards, including; Offshore Safety Induction, Sea Survival, Helicopter Safety and Underwater Escape, Fire Fighting and Self Rescue	OPITO Standards	3 Days	
FOET (Further Offshore Emergency Training)	This course is an OPITO approved course and is the refresher to the BOSIET Course (Note: Only available if done within the 4 year validity of the BOSIET Certificate)	OPITO Standards	1 Day	
Helicopter Landing Officer	Theoretical and practical training in helicopter safety and the duties of the helicopter landing officer	9581	1.5 Days	M&O Pacific premises or on site at client premises
S-Cape or Personal Escape System (PES)	Theoretical and practical training on the S-Cape Emergency Evacuation Unit	24039	2 Hours	M&O Pacific Marine Training Centre
MIST (Minimum Industry Safety Training)	Minimum Industry Safety Training for new recruits to the hazards associated with the offshore industry	OPITO Standards	2 Days	M&O Pacific premises.

STCW95 MARITIME TRAINING COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
STCW 95 Basic Safety Training	A combined programme that incorporates the following modules; <ul style="list-style-type: none"> • Personal Survival Techniques • Fire Prevention and Fire Fighting • Elementary First Aid • Personal Safety and Social Responsibility 	Inter-national Maritime Organisation (IMO) Model Course As approved by NZ Maritime	5 Days	M&O Pacific premises
STCW 95 Fire Prevention and Fire Fighting	Theory and practical training in the techniques and principles of fire prevention, and actions to take when discovering a fire on board. Demonstrate the safe and effective use of extinguishers, hose handling, and using self contained breathing apparatus		2.5 Days	M&O Pacific Fire Training Centre
STCW 95 Advanced Fire Fighting	Theory and practical training in fire control techniques as part of an Emergency Fire Team in the marine environment		4 Days	M&O Pacific Marine Training Centre
STCW 95 Proficiency in Survival Craft	Theory and practical training in the knowledge and skills required to take charge of a Survival Craft		4 Days	
STCW 95 Proficiency in Fast Rescue Boat	Theory and practical training in the knowledge and skills required to take charge of a Fast Rescue Boat		3 Days	
STCW 95 Proficiency in Medical First Aid	Theory and practical training in the knowledge and skills required to treat and manage medical situations for an extended period whilst a sea		5 Days	M&O Pacific premises or on site at client premises
STCW 95 Proficiency in Medical Care (Ships Captain Medical Course)	Theory and practical training in the knowledge required to provide medical care to the sick and injured while they remain on board		5 Days	

FIRST AID TRAINING COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
CPR – First Aid Refresher for Electrical Workers	CPR and Basic First Aid Refresher training to meet the requirements of the Electrical Workers Registration Board	N/A	2 Hours	M&O Pacific premises or on site at client premises
Basic Life Support	Basic training in how to respond to an emergency by assessing the scene, before managing an unconscious patient, including training and practice in CPR, choking procedures and protecting yourself from bio hazards	6402	4 Hours	
Practical First Aid	This training includes Basic Life Support and build on it with training in how to deal with common medical emergencies such as; heart attack, bleeding, diabetes, fractures, dislocations, burns and poisoning	6402 6401	1 Day	
Practical First Aid Refresher	As for Practical First Aid	6402 6401	1 Day	
Comprehensive First Aid	This training includes Practical First Aid and builds on it with the treatment of more severe medical conditions such as; electrical injuries, chemical burns, chest and abdominal injuries, allergic reactions and heat stroke.	6402 6401 6400	2 Days	
Comprehensive First Aid Refresher	Refreshes the skills from the 2 day Comprehensive First Aid course. with simulations and practical scenarios. Current Comprehensive First Aid certificate (2 year duration) is a prerequisite	6402 6401 6400	1 Day	
Pre Hospital Emergency Care (PHEC)	Advanced training for people who may need to support life for some time before help arrives, including extensive use of scenarios and specialist equipment. The course includes 4 modules; Oxygen Therapy, Medical Trauma Management, Defibrillation, Preparation for Transportation	25411 25412 14473	3 Days	

FIRST AID TRAINING COURSES

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
Oxygen Therapy	Theoretical and practical training in the correct methods and applications of medical oxygen in conjunction with other treatments in an emergency situation	25412	1 Day	M&O Pacific premises
Defibrillation	Theoretical and practical training in the correct applications and operation of Automatic External Defibrillator (AED)	25411	4 Hours	
Resuscitation Council Level 4	Theoretical and practical training to provide Dental Professionals with skills to support life in an emergency situation until help arrives		4 hours	

Note: Refresher Training – to be eligible for First Aid Refresher Training trainees must enroll within 2 months of the expiry of their existing certificate.

ROTARY DRILLING WELL CONTROL

Course Name	Course Description	NZQA Unit Standard	Duration	Venue
Driller Level Surface BOP Stack	IWCF or IADC approved Well Control at Driller Level	N/A	5 Days	M&O Pacific premises or on site at client premises
Drilling Supervisor Surface BOP Stack	IWCF or IADC approved Well Control at Supervisory Level	N/A	5 Days	M&O Pacific premises or on site at client premises
Driller Combined Surface and Subsea BOP Stack	IWCF or IADC approved Well Control at Driller Level	N/A	5 Days	M&O Pacific premises or on site at client premises
Drilling Supervisor Combined Surface and Subsea BOP Stack	IWCF or IADC approved Well Control at Drilling Supervisory Level	N/A	5 Days	M&O Pacific premises or on site at client premises

Note: 3 Day Refresher Courses are available on application
